Ana Paula Zurita

Anáhuac Puebla (México)

“Nebrija University embraced me both academically and emotionally. Coming from abroad to a new country and feeling like I belong means everything. Doing an international mobility program is about more than just studying; it’s about discovering, exploring, learning, and living in a way that wasn’t planned. Thanks to all its activities, Nebrija taught me about Spanish culture and gave me friends for life.”

Universidad Nebrija
Madrid, Spain

Nebrija is an excellent choice because...

Come to Madrid; Experience Spain!

Madrid, the capital of Spain, is a cosmopolitan city of four million, well known for its hospitality and openness. It's easy to feel at home in Madrid.

In the geographical center of the Iberian Peninsula, Madrid is ideally located for visits to surrounding cities, many of them World Heritage sites like Salamanca, Segovia, Ávila, Alcalá de Henares, Cuenca, and Toledo.

Madrid is also known for great weather and lots of sun! Spring and autumn in Madrid are very pleasant, with highs of 20° C and lows of 7° C. Winter temperatures range between 2 and 10 degrees Celsius. The summer is generally sunny and hot.

Madrid Never Sleeps

Madrid is one of the liveliest cities in Europe, with an immense variety of places to go at night: quiet, charming restaurants, or bistros and cafés where it's all about "the more, the merrier". Madrid is a city of contrast, where historical monuments stand beside modern architectural gems. The Prado Museum –containing the world's greatest collection of paintings– is one of Madrid's many monuments. There is always something happening in Madrid –music, theatre, cinema, shows– countless events that attract both tourists and locals.

Excellent location

With three campuses in the center of Madrid and another in the middle of the countryside on the outskirts of the capital (La Berzosa).

Teaching methodology

It stands out for its modern and innovative teaching methodology, adapted to the professional demands of the international market. Small groups and strong interaction between students and teachers.

Flexibility. Support and guidance.

Flexibility, with support and guidance in choosing the most appropriate academic programme for the student's present and future needs.

Personal attention

Personalised attention to the student

Experience +25 years

More than 25 years of experience with a modern, practical and interactive training philosophy.

Erasmus+ Programme

The University participates in the Erasmus+ Programme.

Exchange agreements

The university has exchange agreements with more than 300 international institutions.

International Semester Programmes

Nebrija University has a wide range of courses aimed at international university students who wish to complete one or two semesters of their education in Madrid.

Our international programmes offer students the opportunity to integrate themselves into the social and academic life of a Spanish university. Each Integrated Programme, includes undergraduate degree subjects which are shared with Spanish students.

The students may choose freely among the subjects offered within each international programme, which is assigned to a specific campus.

Orientation sessions

The aim of these sessions is to present to students an introduction of the academic departments and support servicios, in addition to a panoramic view of Spanish life, cultural and academic differences.

Programme features

- Developed under the European Higher Education Area (Bologna)
- Flexibility in course selection
- Credit bearing
- Academic and cultural integration
- Courses in Spanish/English.

Nebrija Sports and Clubs

The Sports Service is in charge of managing and organizing all the University's sports activities.

The Nebrija Club Department, for its part, coordinates all the activities carried out by the different Clubs that make up part of what we call the university extension, an interdisciplinary meeting place in which, through complementary activities and training, within a framework of leisure and emotions, our students truly live Nebrija and increase the development of professional competences.
